## AREAS OF EXPERTISE

Ofentse Moalusi holds a Bachelor of Commerce Degree specialising in Accounting, Information Systems, Managerial Accounting and Finance from the University of KwaZulu-Natal. He holds a Master of Business Administration (MBA) degree from Regent. He completed a Business Analysis Diploma at Faculty Training Institute Johannesburg. He also holds an Advanced Diploma in Accounting Science (UNISA). He has studied Post Graduate Diploma in Computer Auditing which he could not complete. He is currently enrolled with Milpark University to study Postgraduate Diploma in Applied Accounting Science (CTA). Moalusi intends to be a qualified Chartered Accountant in the near future. Because of his religious background as a Christian, Moalusi is also enrolled with Bible Institute of South Africa (BISA) studying Bachelor of Theology. Moalusi has written a research paper on “An Evaluation of Traditional Project Management Models used in Broadband Network Implementation in the Public Sector” and intends to publish the same in the near future. Moalusi was also a member of the Project Management Institute (PMI) at some stage in his career. He is a trained project manager, a certified Prince 2 Project Management Methodology foundation consultant.

## PROFESSIONAL EXPERIENCE

Ofentse Moalusi is an entrepreneur with 23 years of experience in both the private and public sector.

His passion and commitment to the transformation of public sector at local government level has led to Moalusi being involved in the establishment and implementation of a Project Management Office at Mkhondo Local Municipality in Mpumalanga. He was part of the team that was mandated by the Mpumalanga Provincial Government to intervene at Mkhondo Local Municipality under section 139(1)(b) of the Constitution of the Republic of South Africa, 1996 (Act No. 108 of 1996) as amended to fulfil the following:

- To design, develop and implement a municipal recovery plan or turn-around strategy;
- To assume the executive functions of the municipality;
- To maintain essential national standards or meet established minimum standards for the delivery of basic municipal services;
- To prevent the municipal council from taking unreasonable action that is prejudicial to the interests of the municipality or to the province as a whole;
- To stabilise and maintain a revenue base for the municipality; and
- To ensure compliance with the municipal financial management act and other legislative instruments.

## STRATEGY FORMULATION

---

He has extensive experience in strategy formulation and implementation and the establishment of Project Management Office (PMO) for both the public and private sector. Following his involvement at COEGA Development Corporation for a number of years, Moalusi was contracted to Kigoma Special Economic Zone (SEZ) in the United Republic of Tanzania to assist in the establishment of the Programme Management Unit for the Kigoma SEZ. Part of his role in Tanzania was to provide special advisory services to the office of the Regional Commissioner (the Premier) of Kigoma on the design and implementation of economic development strategy for the Kigoma region including the private-public partnership model for the Kigoma SEZ.

---

## UNIVERSAL SERVICE ACCESS AGENCY OF SOUTH AFRICA (USAASA)

---

### Key performances

Ofentse Moalusi was also lead member of the team that was appointed by Universal Service Access Agency of South Africa (USAASA) to establish a project management unit that would provide specialist advisory and technical expertise in the deployment of broadband infrastructure, provision of subsidies and the rapid deployment of ICT public access facilities in the under-services areas of South Africa. Ofentse Moalusi's key performance area within the project management unit for USAASA was as follows:

- Provide expertise to conclude feasibility and other studies required to further broadband related projects;
- Overall financial planning and advisory for the project management unit;
- Provide transaction advisory services with National Treasury and the Universal Service Access Fund;
- Management of the teams that were responsible for telecommunications network planning and design for the deployment of broadband networks in under-serviced communities of South Africa.

## PREVIOUS POSITIONS AND EXPERTISE
